Overhead Projectors
3M™ 1700 Series

Give yourself the best

Economical to purchase and operate - the 4 models in the 3M 1700 Series are perfect Overhead Projectors for Education and small Business applications.

They project bright, crisp images (for lit rooms); are simple to operate, transport & store; and their rugged, durable design enables years of use.

Clamshell head for additional protection.

Singlet lens for large image on short distance in smaller rooms. Triplet lens for bright, sharp images in larger rooms.

Folding arm for easy transportation and storage.

Colour tuning to avoid blue and brown light borders.

High/Low switch for lower brightness and extension of the lamp life.
Available on 3 models

Lampchanger for uninterrupted presentations.
Available on 3 models

DISTANCE TO SCREEN
